In December the GAIF AUD Institutional shares recorded a return of +0.676%. The USD Institutional shares recorded a return of +1.233%, benefitting from GAIF's currency hedging program. GAIF accumulated funds during December in order to finance a number of deals in the new year which should add to returns over the next quarter. The unprecedented bushfire season in regional Australia is already leading to finance enquiries for replacement farming and construction equipment lost in the fires. Rapid, effective and strong government, local and international responses to requests for assistance by those individuals and small businesses affected by the fires is likely to continue for the next few months at least.

The GAIF Investment Manager is partnered with Hong Kong based Odyssey Asset Management Ltd (Odyssey) which is a licenced subsidiary of Odyssey Capital Group Ltd, Asia's leading independent Alternative Asset Manager. Under the partnership Odyssey will market GAIF internationally via Odyssey's established distribution channels to grow GAIF AUM substantially to allow GAIF to further develop its investment capabilities.
