The Goldleaf Australian Income Fund (GAIF) had a strong monthly return in January 2020. The AUD institutional shares returned +2.65% and the USD Institutional shares returned +2.46% after all expenses and fees. The performance was largely driven by the opportunity to convert a convertible note into ASX listed shares at a discount to the market price. The fund has sold some of these shares and will continue to exit its position over the weeks ahead. Additionally GAIF financed construction vehicles in January 2020 for a site remediation business which has secured long term contracts in the fire ravaged areas around Bega in south eastern New South Wales and Canberra in the Australian Capital Territory. With a strong pipeline of deals further strong performance over the ensuing months is anticipated.

The GAIF Investment Manager is partnered with Hong Kong based Odyssey Asset Management Ltd (Odyssey) which is a licenced subsidiary of Odyssey Capital Group Ltd, Asia's leading independent Alternative Asset Manager. Under the partnership Odyssey will market GAIF internationally via Odyssey's established distribution channels to grow GAIF AUM substantially to allow GAIF to further develop its investment capabilities.
